A downtown street fair is planned with full cooperation of merchants and organizational groups in Grayling, and a showing by Grayling Automobile Dealers of 1967 model automobiles. Free entertainment in the business district will be offered during the two day event, and colorful street decorations and window displays will add to Grayling's "Carnival of Color."

The first Grayling Area Jaycee litter barrel is now in the AuSable River.

After the OK from Mr. Max Hunt of the Department of Conservation in Roscommon work was started on the barrel. Shortly after that, Robert LaMotte, Charles Fick and Clare (Skip) Madsen put the barrel in the river. Last Sunday during the Jaycees canoe trip the barrel was emptied for the first time by Norman Sorenson and Larry Gust. The barrel will be checked every Monday and Friday of each week. Three more barrels are planned yet this year with more to come next spring. The Jaycees are proud to say that they are doing their share to help keep the AuSable River clear of litter.

When the seven litter barrels between Grayling and Wakeley's Bridge are all in the river next spring, the Jaycees will look at what they feel is a step in the right direction for betterment of the area.

Also any person who signed the petition or any other resident of the township who might have a personal problem due to the ordinance's provisions was asked to submit his problem in writing to the Supervisor and it would be considered. The defensive squad will be about the same with Chauncey Carr, Doug Wilson and Dan Boone probably going in at that time for other players. Other boys who will probably get into the game are: Dave LaGuire, Larry Beery, Barry Holmes, John Hunter, Chuck Theaker, Rod Hinkle and Mike Smock. The last four named will be regular players for the Grayling junior varsity this season for jayvee coach Frank Smith. It is hoped to give them a little experience under fire in this first game of the season.

Besides a thrilling football game, GHS grid fans should see a fine halftime show by the Grayling band under the direction of LeRoy Christian. Both Grayling elevens looked very good on defense but failed to generate as much offensive punch as the coaches had hoped. The varsity put together a 50 yard run for a touchdown and ran off a pass play which clicked for long yardage and another score.

## GM Increases Warranty For All 1967 Car Models

DETROIT — General Motors announced the introduction of the most comprehensive warranty in the U. S. automobile industry last week. The warranty is applicable to all 1967 GM passenger cars and light trucks produced in the United States and Canada.

The current 24-month or 24,000-mile warranty provides for protection on all parts of the vehicle except tires (which are warranted by the tire manufacturer). In addition GM will extend the warranty to five years or 50,000 miles, whichever comes first, on the power train components (engine, transmission, drive line and rear axle) of passenger cars and light trucks.

Effective with the introduction of the 1967 GM passenger car and light truck models, the warranty will cover all 1967 Chevrolet, Pontiac, Oldsmobile, Buick, and Cadillac cars and Chevrolet and GMC light trucks. Not only the original owner of the vehicle but also subsequent owners during the warranty time and mileage specified are protected by the Manufacturer's warranty against defects in material and workmanship.

To maintain this complete coverage the owner will need only to assure his GM dealer at six-month intervals that the service as outlined in the Owner Protection Plan booklet has been performed. This means that the engine oil, oil filter, carburetor air filter, and positive crankcase ventilator valve (and automatic transmission oil and transmission band if so equipped) have been serviced in accordance with the specified maintenance schedule.

Any defective parts except tires (which are warranted by tire manufacturers) will be repaired or replaced if the vehicle is returned to an authorized GM dealer before the vehicle has been operated for 24 months or 24,000 miles, whichever comes first. In the case of power train components the warranty coverage is extended to five years or 50,000 miles from the date of original retail purchase, whichever comes first. The repair or replacement of defective parts under this warranty will be made by the dealer without charge for and labor.

Before you move in know the facts about insurance

- Fact 1: Fire insurance alone on home and contents is not enough. Your home could be destroyed by windstorm, explosion or other hazard.
- Fact 2: Theft coverage of your possessions, at home and away, should be included.
- Fact 3: A lawsuit judgment against you could cost you everything you own. You need liability insurance.
- Fact 4: You get all this and more in one Homeowners policy...with one low premium!

## Industrial Success Story . . .

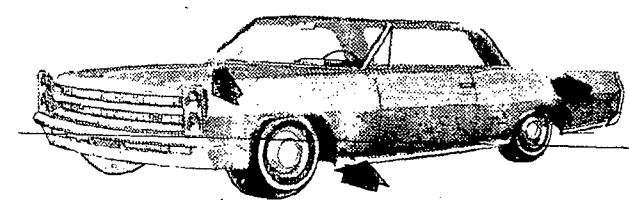

"GAS LIGHTS — Without oil, Tallow, Wicks or smoke." These words printed in a Baltimore newspaper advertisement in 1816, marked the birth of the gas industry which this year is observing its 150th anniversary.

Referred to as "the ring beset with gems of light", as began as a source of illumination and was even edited with a period of American history—the Gaslight Era. With the coming of the electric light in the late 1800's, gas took on a new role as a producer of heat. It has since become a sophisticated, all-purpose, total source of energy in factories, commercial buildings and homes.

The natural gas industry today supplies one third of the energy requirements of the nation and ranks sixth in terms of capital investment. Gas companies with their 765,400 mile nationwide grid of field and gathering lines, transmission systems and local distribution mains serve some 38 million customers with energy for cooking, heating, cooling, air conditioning, incinerating and a raw material used in manufacturing chemicals and plastics.

The success story of the natural gas industry is a long way from being complete. With a future even brighter than its past, the observance of its 150th anniversary is a tribute to an industry which has not only stimulated the growth of the American economy but has contributed heavily to the nation's wealth. It is a story of growth, through the genius of free enterprise, the flickering of an idea unfolded into a major job-producing, expending, investor-owned industry upon which the nation has become heavily dependent. Happy Birthdays to the gas industry.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE  
FILES OF THE AVALANCHE OF 23 YEARS AGO

September 16, 1943

At last the day dawned bright and sunny for which the members of Grayling detachment of Michigan State Troops had long anticipated, after many hours of arduous preliminary work on the proper method of handling a rifle, and they were ready to go on actual firing range. Roll call was at 8 o'clock. An almost 100 per cent attendance greeted the eye of skipper Lt. Ernest Larson, and although teeth chattered the boys managed to answer "here" when their name was called. The entire maneuver was carried out under regular army rules and regulations. After roll call, trucks transported the sharpshooters from the 119th F. A. mess hall to the firing range. The range was under direction of Sgt. Clair Smith, assisted by Sgt. Hilton with coaches for each firing group, the latter instructors being Sgts. Hatfield, Gotro, Gross and Brown. A time limit was set on each sort of firing position, and all men came well within his time. During rapid fire the coaches, who were inserting shells into rifles for the men, were hard put to keep their fingers out of the way of the flying bolts. At 12:30 p. m. the ever welcome mess call was sounded, and the ravenous members hot footed it for chow. A most satisfying chicken dinner was prepared under the direction of Sgt. Robert LaMotte, assisted by four KP's. Judging from the amount of food stowed away it must have been highly palatable. At one o'clock the remainder of the schedule was carried out on firing range, and went off with clocklike regularity, showing that the instructions over the many weeks had been fruit. At the completion of firing all men returned to mess hall headquarters and after some baseball were served a Dutch style supper prepared by Cpt. John LaMotte, assisted by several more boys assigned to KP. The whole day from a military standpoint was a very successful affair and during the week the scores as shot will be tabulated and each man will then know how good or bad he was.

For two weeks the high school football squad has been working out in preparation for the opening football game with Manvela on the local field Friday. Candidates are seeking positions on the starting eleven. With only five lettermen returning the battle for positions is wide open. Thompson, Burns, Babcock, Hatfield and Smock are the returning veterans, while Bennett, Owens, Stevenson, Barber, Miller, Gildner and Kolka have had experience as reserves. Those reporting for the first time are Harwood, Hale, Brady, DeLaMater, C. Papendick, Mathews, Worden, Carlson, Knuth, Tiffin, MacCauley, R. Laurant, W. Laurant and Craft. To fill the shoes of Clark, R. Thompson, LaChappelle, Gierke, Hatfield, Kolka and Sidman, who are in various branches of the service, will be a difficult job. Four letter winners have dropped out of school and Wheaton has decided to attend school in Coopersville. The present squad may lack veterans but local fans will see a good football team. For size the squad will possibly be heavier than last year. They are faced with a record of one defeat in the last two years, and that lone loss to Alpena, a class A. high school.

Robert Funsch left last week for Flint where he has employment in defense work.

Miss Dorothy Dusenbury is to teach in the Frederic schools this year.

To honor her parents, Mr. and Mrs. A. J. Joseph, whose thirtieth wedding anniversary occurred Friday, Miss Mary Jane Joseph arranged a very delightful open house that their friends might enjoy the surprise occasion with them. Some sixty-seven friends called during the evening. They were invited to the candle lighted

dining room and served from a very attractive Madeira cloth covered table centered by a beautiful tiered wedding cake guarded by silver candelabra and gleaming white tapers. Punch was served from a silver bowl. Miss Joseph was assisted by Mrs. C. G. Clippert, Mrs. Harold MacNeven and Miss Gloria MacNeven.

#### V. F. W. POST 3736

On September 11, I was in Midland at the District meeting and checked up some pointers I would like to pass on to the various officers. Please try to attend the next meeting on Sept. 18 at 8 p. m. in the Moose Lodge basement. Would like to see each member bring in a new member and a lot of new names on that charter when we have our closing.

Don't forget the charter closing with a long form ritual for those who have never had it. This will come on Sept. 25th at 2 p. m.

Trustees should be in also at our next meeting as we have our quarterly audit that is due now. Another thought we all should remember is that our 1967 dues should be paid as early as possible. Would like to see this post over to us.

We also need a larger turnout at the meetings.

At the District meeting I met and talked to the Department Sr. Vice-Commander and the District Service Officer, and learned some things just talking to them. They wished us well and hoped we could build a real post.

Please Comrades, let's show our faces on Sept. 18th at 8 p. m. William Higbee, Comm.

## Counties Receive Money From U. S. Forest Lands

Annually, 25 percent of the gross from Forest Service Lands in each county is returned to that county. This money is derived from the sale of timber and permit fees charged for special uses of National Forest Lands.

This year a total of \$56,966.93 was returned to the counties. This money is spent on county roads and schools. In addition, the Forest Service will spend an additional ten percent of gross income on National Forest roads about (\$22,786). Crawford County which has 45,574 acres in the Huron National Forest received \$3,553.91.

The Forest Service also contributes in many ways to the betterment of the land area and its people. National Forest demonstrate the value of scientific conservation practices that are being applied to land that was once logged over, burned over, tax delinquent wasteland. People are employed and permanent improvements are constantly being made in the National Forests.

## Attend The Church Of Your Choice

## DECISION

There's a difference of opinion here. Both of these Little Leaguers stand ready to put up a good argument, even though it is a foregone conclusion that the "ump" is going to win. But when the game is over, differences will be forgotten and umpire and catcher will go down to the drug store together for a banana split.

In doing so, they will be reflecting something that is a basic part of our heritage — the ability to lose, without holding a grudge . . . the ability to yield.

These are qualities important not only to sportsmanship but to life. And this importance is stressed in the most powerful of terms again and again throughout the Bible.

Little Leaguers learn the rules of sportsmanship — and of life — in one way on the playing field and in another, deeper way when they attend church with their families on Sunday. Are you taking your Little Leaguer to church?

## THE CHURCH FOR ALL

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
